EDUCATION –

Technologist Degree in Systems Analysis and Development – FACENS – 2019 - 2022

Master's Degree, Civil and Environmental Engineering – UNESP – 2014 - 2017

Bachelor's Degree in Civil Engineering – FACENS – 2009 - 2013

PROFESSIONAL SUMMARY

Software developer with approximately 6 years of experience developing, maintaining, and enhancing corporate applications using C#, .NET Framework, ASP.NET MVC, Web Forms, AngularJS/Angular, TypeScript, and SQL Server. I perform responsibilities equivalent to a senior-level role, including day-to-day technical leadership, QA and production deployments, Azure resource management, QA team support, participation in technical decisions, and mentoring junior developers. Experience with unit testing, technical documentation, refactoring focused on performance and security, REST API development and consumption, and Git. I use AI agents, such as OpenAI Codex, daily to accelerate development, debugging, refactoring, documentation, and test generation.

TECHNICAL SKILLS

- Backend: C#, .NET Framework, ASP.NET MVC, Web Forms, REST APIs
- Frontend: AngularJS, TypeScript, JavaScript, HTML5, CSS3, Bootstrap
- Databases: SQL Server, My SQL
- Cloud & DevOps: Azure, IIS, Git, QA and production deployment
- Quality: Unit testing
- AI Applied to Development: AI agents
- Concepts and Best Practices: Layered architecture, SOLID, and design patterns

PROFESSIONAL EXPERIENCE

- **2021 – Present – Agencia Vm2 - Full Stack Developer (.NET | Angular)**

Progressed from Mid-level Developer to a role with senior-level responsibilities.

Development and maintenance of applications using C#, ASP.NET MVC, Web Forms, and Angular.

Creation and enhancement of interfaces using HTML, CSS, JavaScript, and TypeScript.

Technical reference for maintaining a business-critical Angular application.

Responsible for test environment deployments and support for the test team.

Responsible for production deployment, and maintenance, including SQL Server adjustments.

Management and maintenance of Azure resources.

Participation in technical and strategic decisions.

Training and mentoring junior developers.

Led the documentation project for a critical system, including flowcharts.

Refactoring focused on performance, maintainability, and security.

Implemented improvements to mitigate intrusion attempts.

Creation and maintenance of unit tests to validate business rules.

Daily use of AI agents (OpenAI Codex) for development, debugging, documentation, and test generation.

- **2020 – 2021 – Agencia Vm2**

Intern in an MVC Razor system, using C#, SQL Server, HTML5, CSS, JavaScript, and jQuery.

- **2016 – 2019 – Own business**

Engineer responsible for projects, regularizations, legalizations, and construction supervision.

- **2015 – 2016 – Escalla School of Professions**

Taught classes for the technical training course for construction foremen.

- **2013 – 2013 - Engecall Metal Structures**

Project Analyst.

- **2012 - 2013 – Construtora Pinese Vieira**

Budget Assistant.

- **2010 - 2012 – Schaeffler Group – INA LUK FAG**

Facilities and Construction Engineering Intern.
